Good Will

THE creation and perpetuation of GOOD WILL is the biggest thought of all. Beyond any dispute, it is the most valuable, most tangible asset one can have,

It is largely GOOD WILL which makes a man or woman buy jewelry from us in preference to buying of a competitor. This preference is a sufficient protection against the blight of hard times. It renders one independent of wars and rumors of wars; of competition, depression and panic.

For years we have been furnishing our trade with high grade jewelry that have enabled us to build "good will" to weather the storms that tossed others on the rocks. A satisfied clientele always has meant more to us than a fattened purse. We'd rather make a friend than make a dollar. Once yon patronize Klein & Son you'll realize what **service** and **Good Will** mean.

Old South Cook Book

INTRODUCTORY.

N issuing the Old South Cook Book, Unit 44 of the Soldiers' Memorial Hospital Committee, does so in the hope that the splendid material in its pages may be a real help to the women who buy the books.

No one should lightly esteem the work connected with collecting, editing, classifying and arranging the many recipes in a book of this kind, nor the effort put forth in soliciting the advertisements, but the women who compose the Unit have contributed their labor and time in the feeling that it was a "work and labor of love" and that due reward is in the knowledge of a contribution on their part to the common good of the community.

The Unit stated in the public press that recipes were wanted for the book which were "original, practical and contained the 'flavor' of the Old South," and the formulas contained in these pages give a pretty accurate idea of the eating enjoyed in the "good old days before the war." There are some recipes, it is true, in the book that our grandmothers never used and we make no apology for them. The women of Montgomery while holding sacred the traditions of the past, are not behind the times nor fosilized.

Many of the recipes have been used by families now represented in our section for a hundred years or more and they are all absolutely authentic, tested, tried and none are inserted in this book to fill space or have been written by the editors.

The firms who so generously contributed to the success of the book should receive the hearty patronage of the women who have the interest of the hospital at heart. Patronize the advertisers.

For the Unit.

SOUPS, FISH AND MEAT.

OLD FASHIONED SOUTHERN GUMBO.

Two lbs. knuckle bone, 1 frying size chicken, 4 quarts cold water, 4 ears corn, 3 slices breakfast bacon, pinch cayenne pepper, 1 tablespoonful flour, 1 medium size onion, 1 small green pepper, 1 quart okra, 1 can tomatoes, 2 teaspoonfuls salt, dash white pepper.

Cover bone with the water, let boil slowly and steadily. Add salt, pepper, cayenne, half of the onion cut up, and boil for three hours.

Remove bone from soup and strain so as to remove all small bone particles.

While soup is cooking, fry the bacon crisp in a hot fryer and put it aside.

In the hot bacon grease put the okra which has been previously soaked in cold water to crisp and then cut into small round pieces. Add balance of onion cut fine, and sprinkle flour over all. Stir while cooking 15 minutes, then add tomatoes and cut up green pepper (after removing part of the seeds). Add corn. Cover vessel and cook thirty minutes, stirring occasionally to keep from burning.

Add vegetable mixture to soup stock and let cook slowly for two hours.

Thirty minutes before serving, roll the chicken, which has previously been disjointed and seasoned, in flour. Fry the pieces in hot fat, then add chicken to soup.

Mrs. Charles F. Moritz.

salt and pepper. Fry bacon in skillet, add onion and brown, add flour brown. Put chicken in skillet and brown on both sides. Slice okra crosswise, add to other ingredients and stir whole until well mixed. Have soup kettle ready, and pour contents of skillet in kettle. Add tomatoes, soup stock, and seasonings. If one has no soup stock, hot water may be used ,and this can be improved by the addition of a teaspoonful of beef extract. This dish is sufficient for an entire meal, though it is also served as soup.

Soup stock can be made from trimmings of any meat dish, gizzards, necks, livers, and wing tips of chicken, covered with cold water, and any herbs, such as parsley, celery, or thyme added for seasoning, also any vegetable as carrot, turnip, tomato, potato, added. Cook very slowly and strain.

Pour on this 3 quarts of water and let it boil slowly until the flesh leaves the bones, then add the liquor from the oysters, salt and pepper to taste, two tablespoonfuls of tomato catsup. Let this boil a short time, then add one hundred oysters and allow them to boil only 5 minutes. Bind the round firmly with a strin of strong cloth, sew a piece on top and botoom to prevent the spices from escaping. Throw into strong brine and let it remain 10 days, then boil with the cloth on for 4 hours.

Naomi C. Roper.

Note—This is fine and was made by my grandmother, Mrs. John Powell and my aunt, Mrs. Carrie Arnold before the civil war and has been used in our family ever since.

KNOX GELATINE solves the problem of "What to have for dessert?"

BARBECUED STEAK.

Beat thoroughly any cut of steak, flour well, salt and pepper to taste. Put in frying pan, with a tablespoon of hot lard, brown quickly on both sides. Over this pour a sauce made of:

One and one-half cups hot water, ½ cup tomato catsup, 1 table spoon Worcestershire sauce, 1 tablespoon butter, ¼ teaspoon tabasco sauce, 1 lemon (juice). Cover well and let simmer for 1 hour.

Serve with toasted crackers.

Mrs. F. C. S.

BRUNSWICK STEW.

(A Virginia Recipe.)

One pound each of lean pork, beef, and veal or chicken and one-half pounds of calfs liver, all cut in small pieces. Six ripe tomatoes peeled and 6 large onions chopped fine, 1 tablespoon of salt, and 1 pod of red pepper, or one teaspoon of cayenne, 1 bay leaf, 4 cloves and ½ lemon sliced thin.

Let simmer for at least 3 hours (5 is better) and add three large potatoes peeled and cut in dice. This is to form the thickening of the stew. Others are added late to keep their identity. In the last hour of cooking add okra, lima beans, carrots, potatoes and any other vegetables desired, and during the last 15 minutes before serving add corn cut from the cob. If the stew is made in the winter canned vegetables will serve very nicely, the absence of fresh vegetables being more than compensated by the squirrel or rabbit or any kind of game meats that can be secured during the hunting season. Brunswick or Camp Stew or "Burgoo" as it is called in Kentucky, is originally a hunter's stew and was made of game.

CANDIED SWEET POTATOES WITH RAISINS.

Boil on top of stove until slices are tender and clear, and syrup thick. Slightly brown inside oven.

CANNED STRING BEANS.

The beans should be fresh and tender and well assorted. String and wash thoroughly. A small pod of red pepper at the bottom of each jar will add to the flavor of the product and aid in its preservation.

Pack the beans in the containers which have been previously sterilized. Fill with cold water to which has been added a level teaspoon of salt and one of vinegar per quart. Put the rubber in place and adjust the cap loosely.

Place jars in the canner and cover with cold water.

Sterilize for three hours in boiling water, counting from the time the water began to boil. Add hot water to the bath when necessary.

At the end of three hours hard boiling, remove from fire and tighten caps. Invert the jars and return to the bath until it cooks. Remove, wrap in paper to prevent bleaching, and store in cool place.

WHITE ICING.

Four whites of eggs, 2½ cups sugar, 1 cup water, ½ teaspoon tartaric acid and Royal Baking Powder mixed. Cook syrup until it drops thick from spoon. Have whites beaten stiff and smooth with ½ cup sugar. Add syrup to eggs little at a time, letting the last cook until it threads. After beating it well put over pan of hot water and add powder. Cook until it piles without sinking. To use plain on cakes does not require so much cooking. The decorative icing can be beaten back smooth. This can be made one day and used the next if oiled paper is fastened over top.

CHOCOLATE FUDGE ICING.

One cup milk, 2 cups granulated sugar, 2 tablespoons grated chocolate or cocoa, 1 tablespoon butter, 1 teaspoon vanilla.

Method—Put all ingredients in double boiler over fire, and cook until thick, stirring occasionally to keep from lumping. Remove from fire, and let get cool, but not cold. Beat until thick as for fudge candy, and pour over cake before it hardens. Let stand until cold, before cutting. Mrs. Sidney G. Weil.

DEVIL'S FOOD CAKE.

One-fourth cup butter, 1½ cups brown sugar, 2 tablespoonfuls Carnation Milk, 6 tablespoonfuls water, 3 eggs, 2 cups flour, 2 large teaspoonfuls baking powder. Cream the butter and sugar. Then cook 5 tablespoonfuls brown sugar, 2 squares chocolate, 2 tablespoonfuls Carnation Milk, 4 tablespoonfuls water in double boiler to a thick paste. When cool, stir into cake batter. Bake in moderate oven. Use plain filling between layers, and cover in two layers—top with boiled icing.

SAUCES, PICKLES, PRESERVES.

SPICED FIGS.

Are made by much the same process as preserves. To eight pounds of sugar add one pint of vinegar and two quarts water, using whole spices. Peel fruit, twelve or fourteen pounds, add to syrup and cook 2 hours. Seal hot.

Mrs. Charles L. Gay.

SPICED (SLOE) PLUMS.

Two quarts plums, 1 cup vinegar, 2 cups sugar, cover plums with cold water, bring to a boil; boil slowly ½ hour. Pour off water (water may be used for jelly) add ingredients to the plums, also ground spice to taste and cook till thick. Seal while hot.

Jean Fitzpatrick.

PLUM SAUCE.

To each pound of plums add ¾ pound sugar, cook until juice begins to thicken, then add pulverized cinnamon to taste. This is a delicious condiment for fresh meats and fowls. If plum jelly is desired, strain sauce through colander and put into jelly molds. The molds should be covered with white tissue paper (to prevent mould) before putting on tops.

Mrs. James Pinckard Wood, Sr., Troy, Ala.

FIG PRESERVES.

Peel 1 peck figs, leave stems; cover figs with water, put in 1 cup lime, let stand 20 minutes. Put 1 cup sugar in large pan of water, let figs come to a boil. Strain figs through a sieve, wash in clear water. Add ¾ lb. sugar to 1 lb. fruit, slice 3 lemons, let boil until figs are tender, remove them and let syrup cook until thick.

Miss Bettie Allen.

PRESERVED FIGS.

Use ¾ lb. of sugar for a pound of figs. Peel firm figs, leaving stems. Boil syrup with 2 sliced lemons and a few sticks of whole cinnamon until it is thick, then add fruit, boil three or four hours, seal hot.

Mrs. Charles L. Gay.

PEAR MARMALADE.

Four pounds of pears after being peeled and cored, cut up and put through a meat grinder, ¾ pound of sugar to each pound of fruit, let lay over night, put to cooking next morning with a small lemon cut in thin slices, then in halves after cooking a short time, add two tins of grated pineapple, cook until done.

Mrs. Hugh Gallagher.

SWEET PICKLED FIGS.

One peck of figs (not over ripe), 7 lbs. sugar, 2 quarts vinegar, bring a strong brine to a boil. Drop in the figs, take vessel off of fire, allow to stand ½ hour. Wash figs through two clear boiling waters. Place vinegar, sugar and spices (to taste) in a vessel and bring to a boil. Drop in the well drained figs and allow to boil 20 minutes. Seal while hot and don't serve for three weeks.

Jean Fitzpatrick.

SWEET PEACH PICKLE.

To each pound of fruit use one half pound of sugar. Place fruit in pot of boiling water, as the heat prevents fruit from getting soft. Cover entirely with water. As soon as fruit comes to boiling point, take up and place on flat dishes, stuff with cloves and spice. Have vinegar and sugar boiling when fruit is put into kettle. Seal while hot. To eight pounds of fruit, use four pounds of sugar and one pint of vinegar.

LOUISIANA FIG PRESERVES.

Figs should be ripe, weigh them before washing, do not let them stand in water as the eye of each fig is open and it will and make the process of boiling much longer. To every pound of figs take a half pound of sugar, say to about 12 pounds of figs I use a quart of water. Make a syrup of the water and sugar and when clear drop in the figs which should be drained off after washing, allowing them to cook until clear and brown. If desired spices or lemons may be added to suit the taste. Seal air tight.

You Need Not Cook This Icing

Do you realize how many tempting, economical ways there are for using Carnation Milk in the kitchen? Try this recipe for uncooked icing:

Four tablespoons Carnation Milk. Three tablespoons melted butter. One-half teaspoon vanilla. One-half teaspoon salt. Three and one-half cups powdered sugar. Cream some of the sugar and milk. Add more sugar until proper consistency. Spread on cake and set away in cool place. Chocolate or fruit coloring may be added if desired.

There are more than one hundred tested recipes to be found in the Carnation Cook Book which will be sent free on request. Carnation Milk is pure cows' milk, evaporated to the consistency of cream and sterilized. Economical, convenient, pure—it is sold by grocers everywhere.

GROWTH IS MIGHTY

As Emerson says: "The creation of a thousand forests is in one acorn."

Like the acorn, **Dependability** to the success of a store is the same as mother earth is to the acorn. It is fertile. It is the foundation. It will create thousands of friends.

But growth must come through experience. We must know a thing before we know it.

That requires personal experience, for everything that exists today was once the private opinion of one person.

The growth of this Store is not an accident, it is the result of an idea of its founders in a plan for the future, using their experience in catering to the needs of the Store's customers.

Back of it all stood the goal and motto: **Dependability.** Yes, we have grown, but this day is still early. The growth shall continue for these ideas shall continue.
